CONTENTS

Contents 3

Neurochemical and Psychomotor Interactions of New Selective COMT Inhibitors with Clorgyline and Nomifensine in Levodopa-Treated Rats and Mice. *M. Törnwall, P. Tuomainen and P. T. Männistö* 5

Studies on the Mechanism of Action of the Antiparkinsonian Drugs Memantine and Amantadine: No Evidence for Direct Dopaminomimetic or Antimuscarinic Properties. *R. Jackisch, T. Link, B. Neufang and R. Koch* 21

Differences in Cardiodepressant Effects of Halothane and Isoflurane after Inotropic Stimulation in Guinea-Pig Papillary Muscles. *T. Schappert, H. M. Himmel and U. Ravens* 43

Influence of the Endothelium on the Responses to Endogenous Agonists in Human Internal Mammary and Gastroepiploic Arteries. *P. Unger, G. Berkenboom, J.-M. De Smet, M. Depierreux and J. Fontaine* 56

Simultaneous Measurement of Renal Blood Flow of the Outer and Inner Cortex by Laser-Doppler Flowmetry in Anesthetized Dogs: Effect of Enalapril Diacid. *K. Noguchi, Y. Ojiri, T. Chibana and M. Sakanashi* 68

Epithelial Modulation of Antigen-Induced Tracheal Smooth Muscle Contractions in Actively Sensitized Guinea-Pigs. *Y. Egilmez and M. Ilhan* 81

Glucagon Enhances Bile Flow, Bilirubin Uridine Diphosphate-Glucuronyltransferase Activity and Biliary Bilirubin Monoconjugate Excretion in the Rat. *G. L. Ricci, R. Michiels, J. De Groote and J. Fevery* 93

Catecholamine Modulation of Magnesium Plasma Levels in the Rat. *G. Guideri* 103

Society of Experimental and Clinical Neurochemistry. Abstracts of Communications presented at the Meeting on "Nuclear Hormone Receptors and Brain Function", Oss, November 20, 1992 115
